Your Directors have recommended a dividend of Rs.2/- per share (i.e.20%) on Company's paid up equity share capital comprising of 38,13,400 equity shares of Rs. 10/- each.

Thus, the total dividend outgo for the current fiscal will amount to Rs.7,626,800/- plus dividend distribution tax of Rs.1,552,664/-.

3. OPERATIONAL HIGHLIGHTS AND PROSPECTS/ STATEMENT OF AFFAIRS:

The Company earned operational income of Rs.8800.50 lacs compared to Rs. 11,459.22 lacs for the previous year. The other income is Rs.115.04 lacs compared to Rs.341.40 lacs in the previous year.

The total revenue for the year is Rs. 8,915.53 lacs against Rs. 11,800.62 lacs in the previous year. Profit after tax is Rs.586.57 lacs as compared to previous year figure of Rs. 1,228.59 lacs.

During the period under review, your company was able to export transformers valuing Rs.13.86 crores as compared to previous year Rs.44.36 crores.

The results were not comparable with previous year. This is mainly due to implementation of GST which has impacted on costs and rates. The government had earlier exempted excise duty in case of solar transformers; benefit of such exemption is not available in GST regime. The Government has not reviewed its policy timely in this direction.

The Company has not received any order for windmill transformers since beginning of the financial year, mainly due to Government policies. This has largely impacted on turnover of the Company as compared with previous year.

The Company has concentrated on catering needs of renewable energy sector including solar and wind energy in local market wherein the Company has been enjoying commendable position being one of the top companies in India supplying transformers for renewable energy.

There is no change in nature of business of the Company during the financial year.

The Company has prepared the Financial Statements for the Financial Year 2017-2018 in accordance with Indian Accounting Standards.

PROSPECTS:

The current economic scenario shows positive signal of growth in power production sector, cement sector, construction, service sectors etc. The Company also looks forward new business from local private sectors but it largely depends on how the new power projects will take place under the initiatives taken by the Central Government.

EXPANSION OF CAPACITY AT NEW FACTORY:-

The Company is investing heavily on new production facility located on Padra – Jambusar highway. The new facility will be state-of-the-art with modern equipments and material handling system. Company is investing approximately Rs.36 crores in this facility which will increase revenue by three folds once utilized 100%. The commencement of production at new facility will start from beginning of financial year 2018-2019.

INSURANCE:

All the properties of the Company including buildings, plant & machinery and stocks have been insured.

4. ACCREDITATION:

Your Company has taken BIS approval for many ratings during the year.

The Company is also holding ISO 9001:2000 Certificate since September, 2004 for quality systems in relation to its factory located at village Bil, District Vadodara in the State of Gujarat.

5. CREDIT FACILITIES

To fund expansion at new factory and for working operations, the Company has availed working capital loan and Foreign Currency Term loan from Standard Chartered Bank. Further, the Company has been optimally utilizing its fund based and non fund based working capital requirements as tied up with Bank of Baroda. Management Discussion and Analysis

a) Industry Structure and Developments

The power sector in India has witnessed a transformation with progressive policy-level & effective implementation of directives. These changes have offered significant opportunities and have generated faith enough of various industry stakeholders and market players to invest in India's power segment. Not only on the central front but at the state level too, the policy and regulatory environment have played a vital role in attracting investments. The Rs. 55 bn Indian transformer industry will benefit from the strong demand expected from reforms in the power sector. Improved realizations and higher volumes will largely drive this growth. The transformer market in India has been in a sound state for a few years now. The renewable energy policies of the states are implemented on such similar grounds and have been very much responsible in shaping the RE market of the states. The government initiatives alongside the need of substitution of transformers introduced in the previous years are relied upon to drive development in the Indian transformers market.

b) Opportunities

As India aims to scale near double digit economic growth in the future, having said that the quantum of power required to address the cumulative and inclusive peripheral growth has to be in the order of 12-15 GW per annum. Though, thermal power shall still be the leader in terms of addressing the need of the country it is imperative take note of the paradigm shift observed in the generation portfolio mix post 2014. The current government's initiatives has embarked concrete avenues for renewable energy capacities from solar and wind power. Given , all the intermittent challenges like huge Capex requirement , environmental considerations and skilled manpower etc. India's hydro sector looks to gain as well from the fillip observed in the country for clean energy generation.

c) Threats

Various tax exemptions/ reliefs granted under previous indirect tax regime have not been extended under GST. Increasing competition from domestic and foreign players could lead to margin contraction due to pricing pressure. Some of the larger global players are already present in India. Since the industry is not very capital intensive, more local & foreign players could enter the market in future.

d) Segment wise performance

Power transformer forms the largest chunk of transformer market by value and account for about 60-65% of the total transformer industry. Distribution transformers would account for the remaining 40-45% of the total value of the transformer industry. Your Company is engaged in manufacturing of Distribution Transformers ranging from 5 KVA to 3000 KVA and Power Transformers ranging from 3000 KVA to 50,000 KVA. The Company also manufactures solar and windmill transformers for renewable energy sector.

e) Outlook

In the present scenario, Your company has concentrated on updating its technical capabilities to develop transformers of latest technology and design and in turn strengthen its market share and improvise its profitability. However, growing Indian economy, growth in electricity consumption, growing industrial demand, expanding export market, large scale generation capacity addition, setting up of national grid, rapid expansion of urban and rural distribution infrastructure will remain key drivers of the transformer market in India.

f) Risks and concerns

The industry faces risk of uncertainty in tax policy of the Governments which results in meager investments in the sector of solar energy, wind energy, green energy projects and green transformers.

g) Internal control system

The Company has implemented internal control system at floor to shop level and we believe that Internal controls and systems implemented are adequate. These are also reviewed periodically by the Audit Committee and efforts are made to improve further, wherever possible.

h) Discussion on financial performance with respect to operational performance.

The Company earned operational income of Rs 8,800.53 lacs compared to Rs.11,459.22 lacs for the previous year. The other income is Rs.115.04 lacs compared to Rs.341.40 lacs in the previous year. The total revenue for the year is Rs.8,915.53 lacs against Rs.11,800.62 lacs in the previous year. Profit after tax is Rs.586.57 lacs as compared to previous year figure of Rs.1,228.59 lacs. The Company has concentrated on catering needs of renewable energy sector including solar and wind energy in local market wherein the Company has been enjoying commendable position being one of the top companies in India supplying transformers for renewable energy.

g) Material developments in Human resources / Industrial Relations front, including number of people Employed.

Your Company continued its activities during the year in a cordial atmosphere with utmost co-operation amongst employees and the management. As of the date of the report, the total number of the employees of Company are 105. The management is committed to promote safety, occupational health and proper environment is design, planning, training and completion of all tasks. Trainings are imparted to workmen in various new techniques and systems. During the period under review, your Company remains "Zero Discharging Pollution Unit". The Company undertakes various CSR activities before it became mandatory for the upliftment of society, betterment of human being, and the Company believes growth of all stakeholders vis a vis growth of the Company.

1. Introduction: Remuneration Policy

The remuneration policy for members of the Board of Directors and Executive Management of Shilchar Technologies Limited (herein after referred to as "Shilchar") reflects the interest of the shareholders and the Company taking into consideration any specific matters, including the assignments, the responsibilities undertaken and also be competitive with the external market. The Company recognizes the benefit of a Board that possesses the right balance of skills, knowledge, experience, expertise and diversity of perspective.

2. **The Nomination and Remuneration Committee** shall formulate eligible criteria for nomination and selection of Directors and recommended remuneration policy for the directors.

3. **Appointment and Qualification of the Directors and the Composition of the Board shall be governed by the Nomination and Remuneration Committee.**

In recognition of the fact that the selection of qualified directors is complex and crucial to the long-term success of the Company, the Nomination and Compensation Committee has established the following guidelines for the identification and evaluation of candidates for the membership on the Company's Board of Directors.

Candidates should be distinguished individuals who are prominent in their fields or otherwise possess exemplary qualities that will enable them to effectively function as directors of the Company. While the Nomination and Compensation Committee may not believe it appropriate at this to establish any specific minimum qualification for candidates, the Committee shall focus on the following qualities in identifying and evaluating candidates for Board membership.

Board Membership Criteria

- Educational background, business experience and skills
- Character, reputation of highest ethical standards and personal integrity
- Practical wisdom, Sound Business Judgment and strong sense of professionalism
- Independence and objectivity
- Diversity and multi-cultural experience and understanding
- Strong understanding of marketing, finance and other disciplines relevant to the success of business.
- Willingness to commit, as well as have sufficient time to discharge his or her duties to the Board.
- Ability to consider and understand all the constituencies of the Company, which includes stockholders, employees, customers, governmental units, creditors and the general public.

- Any other factors that the Nomination and Compensation Committee may consider to be relevant and appropriate for the appointment.

Recognizing that the overall composition of the Board is essential to the effective functioning of the Board the Nomination and Compensation Committee shall make appointment in the context of the existing composition of the Board so as to achieve an appropriate mix of backgrounds, skills, diversity and qualities. In making its determinations, the Nomination and Compensation Committee shall take into account all applicable legal, regulatory and stock exchange requirements concerning the composition of the Board and its committees.

4. Evaluation Criteria:

The Board constantly evaluates the contribution of the members and re-appoints them for tenure as per company requirement based on their performance linked to strategic objectives of the Company. Evaluation criteria may be membership accountability, governance, board operations, legal responsibilities, financial overview, board management relations and personal leadership.

5. Remuneration to the Board of Directors and Executive Management:

The remuneration of the Board of Directors and Executive Management is set by the Nomination and Remuneration Committee under the delegated powers of Board.

Efforts are made to ensure that the remuneration of the Managing Director / Wholetime Director matches the level in comparable companies, whilst also taking into consideration board members' required competencies, qualification, efforts and scope of the board work, including the number of meetings.

Attracting and retaining top talent is the key objective of our approach to remuneration. This is done keeping in mind that the competitive and fair awards are linked to the key deliverable and also aligned with the market practices and stakeholders' expectations.

Accordingly, the Board of Directors believes that a combination of fixed and performance based pay to the Executive Management helps ensure the Company can attract, motive and retain key employees while reflecting the short and long term performance objectives and goal of the Company.

7. Linkage to Performance:

The relationship of remuneration to performance is clear and ties the larger part of remuneration to long-term performance. The level varies according to performance relative to measure linked directly to strategic priorities.

8. Policy on Diversity:

Shilchar is committed to the highest standards of corporate governance, transparency and accountability. Hence, we strive to leverage Diversity to contribute to the achievement of Shilchar's strategic objectives.

Accordingly, the Board aims to attract and maintain a Board which has an appropriate mix of Diversity, education, skills, knowledge, experience, expertise and cultural background. The Shilchar Board recognizes the value of appointment of individual who bring a variety of diverse opinions, perspectives, skills, experience, background and orientations to its business decision and its decision-making processes.

An overriding principle is that all appointment to the Board will be based upon the merit and suitability of the candidate. Taking this in to account, appointment of female members to the Board is also to add value of a more diverse board.

9. Review of the Board Diversity Policy:

The Nomination and Remuneration committee shall review this policy, as appropriate, to ensure the effectiveness of this policy. The nomination committee shall discuss any revision that may be required and recommend any such revisions to the Board for consideration any approval.

10. Disclosure and Publication:

A summary of this policy shall be disclosed in the Corporate Governance Report of the Annual Report of Company.

The aforesaid Policy has been re-affirmed and adopted by the Board of Directors in their Meeting held on 28/05/2018.

**INDEPENDENT AUDITOR'S REPORT
To the Members of SHILCHAR TECHNOLOGIES LIMITED**

Report on the Indian Accounting Standard (Ind AS) Financial Statements

We have audited the accompanying Ind AS Financial statements of **SHILCHAR TECHNOLOGIES LIMITED** ('the Company'), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS Financial Statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at March 31, 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Referred to in Para 1 ‘Report on Other Legal and Regulatory Requirements’ in our Independent Auditor’s Report to the members of the Company on the Ind AS Financial Statements for the year ended March 31, 2018.

On the basis of such checks as considered appropriate and in terms of the information and explanations given to us, we state as under:

- I. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipments;
- (b) As informed to us, the company has regular programme of physical verification of its fixed assets by which the fixed assets are verified in phased manner over a period of time. In accordance with this programme, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the company and the nature of its assets;
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, we report that, the title deeds of immovable properties are held in the name of the Company;
- II. As per the information and explanations given to us, Physical verification of inventory has been conducted at reasonable intervals by the management and no material discrepancies were noticed on physical verification;
- III. According to the information and explanations given to us, the Company has not granted any secured or unsecured loans to Companies, Firms, Limited Liability Partnership or any other parties covered in the register maintained under section 189 of the Companies Act, 2013. Therefore the requirements of sub-clause (a), (b) and (c) of clause (iii) are not applicable to the Company.
- IV. In our opinion and according to the information provided to us, there are no loans to directors including entities in which they are interested in respect of which provision of section 185 are applicable and hence not commented upon. Further, in our opinion and according to information and explanation given to us, provision of section 186 in respect of loans and advances given and investment made have been complied with by the Company. There are no guarantees and securities given in respect of which provision of section 186 of the Act are applicable and hence not commented upon;
- V. In our opinion and as explained to us, the Company has not accepted any deposits during the year and therefore, the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed thereunder are not applicable to the company;
- VI. We have broadly reviewed the cost records maintained by the Company as prescribed by the Central Government under sub section (1) of Section 148 of the Companies Act, 2013 and are of the opinion that, prima facie, the prescribed cost records have been made and maintained by the company. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete;
- VII. According to the information and explanations given to us, in respect of statutory dues:
 - a) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company is generally regular in depositing undisputed statutory dues including Provident Fund, Employees’ State Insurance, Income Tax, Sales-Tax, Service Tax, Goods and Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and any other statutory dues and there are no undisputed statutory dues outstanding as at 31st March 2018, for a period of more than six months from the date they became payable;
 - b) According to the information and explanations given to us and the records examined by us, there are following disputed dues of sales tax, that have not been deposited on account of dispute;

Name of the statute	Nature of dues	Amounts (Rs.)	Period to which the amounts relates	Forum where dispute is pending
Central Sales Tax Act	Central Sales Tax (Including interest and penalty thereon)	25,65,945	2010-11	Tribunal

- VIII. Based on our audit procedure and according to the information and explanation given by the management, we are of the opinion that the company has not defaulted in repayment of dues to financial institutions or banks, Government or dues to debenture holders;
- IX. According to the information and explanations given to us, no moneys were raised by way of initial public offer or further public offer (including debt instruments) and the term loans were applied for the purpose for which the loan were obtained during the year;
- X. During the course of our examination of the books of account and records of the company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any incidence of fraud on or by the company noticed or reported during the year, nor we have been informed of any such case by the management;
- XI. In our opinion and according to the information and explanations given to us, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act;
- XII. In our opinion and according to the information and explanation given to us, the Company is not a Nidhi company. Accordingly, this clause of the Order is not applicable;
- XIII. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards;
- XIV. According to the information and explanations given to us and based on our examination of the records of the Company, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review;
- XV. According to the information and explanation given to us and based on our examination of the records, the Company has not entered into non-cash transactions with the directors or persons connected with him. Hence, the provisions of Section 192 of the Act are not applicable;

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **SHILCHAR TECHNOLOGIES LIMITED** (“the Company”) as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of internal financial controls with reference to financial statements of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements of the company were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an internal financial controls with reference to financial statements of the company and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1. COMPANY OVERVIEW AND SIGNIFICANT ACCOUNTING POLICIES:

1.1 Description of Business

SHILCHAR TECHNOLOGIES LIMITED ("the Company"), incorporated in the year 1986 is Public Limited Company and engaged in the business of manufacturing of "Distribution & Power Transformers" as well "Electronics & Telecommunication Transformers."

The Company made its public issue in the year 1995 and is listed on Mumbai Stock Exchange.

1.2 Basis of Preparation of Financial Statements

i. Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 ("the Act"), Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and other relevant provisions of the Act as applicable.

The financial statements up to year ended March 31, 2017 were prepared in accordance with the Accounting Standards notified under section 133 of the Act read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ("Indian GAAP") and other relevant provisions of the Act as applicable.

These financial statements are the Company's first Ind AS financial statements and are covered by Ind AS 101- First time Adoption of Indian Accounting Standards. The transition to Ind AS has been carried out from the accounting principles generally accepted in India ("Indian GAAP") which is considered as the 'Previous GAAP' for purposes of Ind AS 101. An explanation of how the transition to Ind AS has affected the Company's financial position, financial performance and cash flows is provided in Note 47 of the financial statement.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except the following:

- Certain financial assets and liabilities that are measured at fair value;
- Defined benefit plans – plan assets measured at fair value.

iii. Functional and presentation currency

These financial statements are presented in Indian Rupees, which is the Company's functional currency, and all values are rounded to the nearest lakhs, except otherwise indicated.

iv. Composition of Financial Statements

The financial statements comprise:

- Balance Sheet
- Statement of Profit and Loss
- Statement of Cash Flow
- Statement of Changes in Equity
- Notes to Financial Statements

1.3 Significant Accounting Policies and Other Explanatory Notes

A. Property, Plant and Equipment:

i. Recognition and measurement

Freehold land is carried at cost and not depreciated. All other items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognized in the Statement of Profit and Loss.

If significant parts of an item of property, plant and equipment have different useful life, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

An Item of Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss on disposal of an item of property, plant and equipment is recognized in the Statement of Profit and Loss.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at April 1, 2016 measured as per the Previous GAAP and use that carrying value as the deemed cost (except to the extent of any adjustment permissible under other accounting standard) of the property, plant and equipment.

ii. Subsequent Expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Capital Work-in-Progress

Plant and properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying asset, borrowing costs capitalized in accordance with the Company's accounting policies. Such plant and Properties are classified and capitalized to the appropriate categories of Property, Plant and Equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the asset are ready for their intended use.

iv. Depreciation

Depreciation is recognised so as to write off the cost of the assets (other than freehold land and Capital work in progress) less their residual values over their useful lives, using the Straight Line Method on the basis of useful lives specified in part C of Schedule II to the Companies Act, 2013. The Estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in the estimated accounted for on a prospective basis.

B. Intangible Assets:

i. Recognition and measurement

Intangible Assets are stated at cost of acquisition less accumulated amortization and accumulated impairment, if any. Amortization is done over their estimated useful life on straight line basis from the date that they are available for intended use, subjected to impairment test.

ii. Amortization

Software, which is not an integral part of the related hardware is classified as an intangible asset and is amortized over the useful life of 3 years.

C. Impairment:

i. Non - financial assets

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite life may be impaired. If any such impairment exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. If the recoverable amount of the asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in statement of Profit and Loss.

D. Inventories:

Inventories are measured at the lower of Cost and Net Realizable Value. The cost of inventories is based on the first-in first-out formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, costs includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The Net realisable value of work in progress is determined with reference to the selling prices of related finished products.

Raw materials, components and other supplies held for use in the production of finished products are not written down value below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

E. Investments and Other Financial Assets:

i. Classification:

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through Statement of Profit and Loss), and
- Those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in Statement of Profit and Loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt or equity investments when and only when its business model for managing those assets changes.

ii. Measurement

At initial recognition, in case of a financial asset not at fair value through profit and loss, the Company measures a financial asset at its fair value plus, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through Statement of Profit and Loss are expensed in Statement of Profit and Loss.

- (a) Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost.
- (b) Fair Value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through Other Comprehensive Income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit and loss and recognized in other gains/losses. Interest income from these financial assets is included in other income using the effective interest rate method.
- (c) Fair value through profit and loss: Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through Statement of Profit and Loss. Interest income from these financial assets is included in other income.

iii. Equity Instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to Statement of Profit and Loss. Dividends from such investments are recognized in Statement of Profit and Loss as other income when the Company's right to receive payment is established.

Changes in the fair value of financial assets at fair value through profit and loss are recognized in other gain/losses in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iv. Derecognition

A financial asset is derecognized only when

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

F. Cash and Cash Equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and highly liquid investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from the operating, investing and financing activities of the Company are segregated.

G. Financial Liabilities:

i. Measurement

All financial liabilities are recognized initially at fair value and in the case of loans, borrowings and payables recognized net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

ii. Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the Effective Interest rate (EIR) amortization process.

H. Foreign Currency Translation:

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Indian Rupee (INR) is the functional and presentation currency of the Company.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income and expenses in the Statement of Profit and Loss, in the period in which they arise.

I. Derivatives:

Commodity Derivatives:

The Company is exposed to fluctuations in the prices of its raw materials. In case of principal raw materials such as copper, aluminum, oil etc, the risks on costing of the Company's products on account of fluctuations in prices of these materials is quite high. The Company tries to limit the effects of fluctuations in prices of these critical materials by following risk management policies including use of derivatives. For this, the Company enters into derivative buy or sell contracts for these commodities on the MCX Exchange. These contracts are generally not used for trading or speculation purposes.

In case of such derivative contracts, the gain or loss arising on exercise of option or settlement or cancellation are recognized in the Statement of Profit and Loss for the period. The derivative contracts outstanding as at the balance sheet are marked-to-market and corresponding gain or loss recognized on the same.

J. Revenue recognition:

Revenue is recognized to the extent that it is possible that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into the account contractually defined terms of payment and excluding taxed or duties collected on behalf of the government.

i. Sale of Goods

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognized when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of contracts and no significant uncertainty exist regarding the amount of the consideration that will be derived from the sale of the goods.

ii. Interest income

Interest income from the financial assets is recognized on a time basis, by reference to the principle outstanding using the effective interest method provided it is probable that the economic benefits associated with the interest will flow to the Company and the amount of interest can be measured reliably. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of that financial asset.

iii. Other Income:

- i) Export incentives are recognized when the right to receive them as per the terms of the entitlement is established in respect of exports made.
- ii) Other income is accounted for on accrual basis except where the receipt of income is uncertain in which case it is accounted for on receipt basis.
- iii) Claims/Insurance Claim etc are accounted for when no significant uncertainties are attached to their eventual receipts.
- iv) Income from Sale of Wind Operated Power is accounted on accrual basis on confirmation of units generated and supplied to the State Electricity Board as per the agreement.

K. Employee benefits:

i. Short-term obligations:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Provident Fund:

Contribution towards provident fund for employees is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

iii. Gratuity:

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The gratuity plan in Company is funded through annual contributions to Life Insurance Corporation of India (LIC) under its Company's Gratuity Scheme. The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

iv. Compensated Absences:

Entitlement of employees accumulating earned leave and eligibility of compensation or encashment of the same is also a defined benefit obligation and is treated as long term in nature in terms of the policies of the Company for the same. The value of obligation towards the same is provided for on the basis of actuarial valuation using projected unit credit method as at the balance sheet date. Actuarial gain / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

L. Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

M. Income tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in India. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the standalone financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences only if it is probable that future taxable amounts will be available to utilise those temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

N. Provisions and Contingencies:

i. Provisions

Provisions for legal claims, product warranties and make good obligations are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Long-term provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money. Short term provisions are carried at their redemption value and are not offset against receivables from reimbursements.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

ii. Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

iii. Contingent Assets

Contingent Assets are not recognised but are disclosed in the notes to the financial statements.

O. Earnings per Share:

i. Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares.
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

ii. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

P. Leases:

Lease in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases.

As a lessee

Payments made under operating leases (net of incentives received from the lessor) are charged to Statement of Profit and Loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognized in income on a straight line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

The respective leased assets are included in the balance sheet based on their nature.

Q. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting to the Chief Operating Decision Maker "CODM" of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segment. The Company has monthly review and forecasting procedure in place and CODM reviews the operations of the Company as a whole.

R. Exceptional items:

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

1.4 Key Accounting Judgments, Estimates and Assumptions

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates

Estimates and underlying assumptions are reviewed on an ongoing basis. Any change in these estimates and assumptions will generally be reflected in the financial statements in current period or prospectively, unless they are required to be treated retrospectively under relevant accounting standards.

2. RECENT ACCOUNTING PRONOUNCEMENTS:

Ind AS 115: Revenue from contracts with Customers

On 28th March, 2018, Ministry of Corporate Affairs (MCA), has notified the Ind AS 115, Revenue from contracts with Customers. The core principal of new standard is that an Entity should recognise the revenue to depict the transfer of promised goods or services to Customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flow arising from the entity's contracts with customers. The effective date for adoption of Ind AS 115 is financial period beginning on or after 1st April, 2018. The Company will adopt the standard on 1st April, 2018 using cumulative catch up transition method and accordingly comparative for the year ending or ended 31st March, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 on the operation of the Company is being assessed by the Company.

(i) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes mutual funds that have quoted price. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers between levels 1 and 2 during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted analysis (if any).

45 Financial Risk Management

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

(A) Credit risk

Credit risk is the risk of incurring a loss that may arise from a borrower or debtor failing to make required payments. Credit risk arises mainly from outstanding receivables from free market dealers, cash and cash equivalents, employee advances and security deposits. The Company manages and analyses the credit risk for each of its new clients before standard payment and delivery terms and conditions are offered.

(i) Credit risk management

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer and including the default risk of the industry, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business;
- ii) Actual or expected significant changes in the operating results of the counterparty;
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations;
- iv) Significant increase in credit risk on other financial instruments of the same counterparty;
- v) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instrument, which requires expected lifetime losses to be recognized from initial recognition of the receivables. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and relevant information that is available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

The reconciliation of Expected Credit Loss is as follows:

Particulars	As at March 31, 2018	As at March 31, 2017
Balance at the beginning of the year	6.08	6.61
Provision made/(reversed) during the year	1.26	(0.53)
Balance at the end	7.33	6.08

Other than trade and other receivables, the Company has no other financial assets that are past due but not impaired.

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(i) Maturities of financial liabilities

The tables herewith analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market risk

(i) Foreign currency risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The risk is measured through a forecast of foreign currency for the Company's operations.

The Company's exposure to foreign currency risk at the end of the reporting period expressed in Indian Rupee, are as follows:

(i) **Trade receivable and other Receivable**

Currency	As at March 31, 2018		
	Trade receivable and other Receivable	Hedges available	Net exposure to foreign currency risk
USD	358.41	-	358.41

46 Capital Management

Risk management

For the purpose of the company's capital management, equity includes equity share capital and all other equity reserves attributable to the equity holders of the Company. The Company manages its capital to optimise returns to the shareholders and makes adjustments to it in light of changes in economic conditions or its business requirements. The Company's objectives are to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth and maximise the shareholders value. The Company funds its operation through internal accruals. The management and Board of Directors monitor the return on capital as well as the level of dividends to shareholders.

47 Disclosure as required by Ind AS 101 first time adoption of Indian Accounting Standards

Transition to Ind AS

These are the Company's first Standalone Financial Statements prepared in accordance with Ind AS.

The accounting standards notified u/s 133 of the Companies Act, 2013 and the Accounting policies set out in note 1.2 have been applied in preparing the financial statements for the year ended March 31, 2018, the comparative information presented in these financial statements for the year ended March 31, 2017 and in the preparation of an opening Ind AS balance sheet at April 1, 2016 (The Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP).

An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied by the Company in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its Property, Plant and Equipment (PPE) as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for decommissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Company as elected to measure all of its PPE and Intangible assets at their previous GAAP carrying value.

A.1.2 Designation of previously recognized financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at Fair Value through Other Comprehensive Income (FVOCI) on the basis of the facts and circumstances at the date of transition to Ind AS. The Company has elected to apply this exemption for its investment in equity investments.

A.2 Ind AS Mandatory Exceptions

A.2.1 Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP: - Investment in equity instruments carried at FVOCI; and - Investment in mutual funds carried at Fair Value through Profit and Loss (FVTPL).

A.2.2 De-recognition of financial assets and liabilities

Ind AS 101 requires a first time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognized as a result of past transactions was obtained at the time of initially accounting for those transactions. The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

A.2.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

B. Reconciliations between previous GAAP and Ind AS

The following tables represent the reconciliations of Balance Sheet, Total Equity, Total Comprehensive Income, and Cash Flows from previous GAAP to Ind AS.

C. Notes to First time adoption

1 Fair valuation of investments

Under the previous GAAP, investments in mutual funds were classified as long-term investments or current investments based on the intended holding period and realisability. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value. The resulting fair value changes in investment in mutual funds have been recognized in retained earnings as at the date of transition and subsequently in the profit and loss for the year ended March 31, 2017. This increased the retained earnings by Rs.1.66 Lakhs as at March 31, 2017 (April 1, 2016 - Rs.0.12 Lakhs).

2 Loss allowance

On transition to Ind AS, the company has recognised impairment loss on trade receivables based on the expected credit loss model as required by Ind AS 109. Consequently, trade receivables have been reduced with a corresponding decrease in retained earnings on the date of transition and there has been an incremental provision for the year ended 31 March 2017 resulting in decreased in carrying amount by Rs.6.08 Lakhs as at 31 March 2017 and by Rs.6.61 Lakhs as at 1 April 2016.

3 Retained Earnings

Retained earnings as at April 1, 2016 has been adjusted consequent to the above Ind AS adjustments.

4 Deferred tax

Deferred tax have been recognized on the adjustments made on transition to Ind AS.

5 Reversal of Dividend provided

Under previous GAAP, dividend on equity shares, which was recommended by the board of directors after the end of reporting period but before the financial statement were recognised in the financial statements as a liability. Under Ind AS, such dividend are recognised when declared by the members in a general meeting. The effect of this change is an increase in total equity as at 31st march 2016 of Rs. 22.95 Lakhs, but does not affect profit before tax and total profit for the year ended 31st March 2017.

6 Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognized in other comprehensive income instead of profit and loss. Under the previous GAAP, these remeasurements were forming part of the profit and loss for the year.

48 Event after reporting Period

The Board of Director recommended final dividend of Rs.2 per equity share for the financial year ended on 31st March, 2018. The payment is subject to approval of share holder in ensuing Annual General Meeting of the Company. (Previous year Rs. 3 per equity share).

49 These Financial Statements were authorised for issue in accordance with the resolution of the Board of Directors in its meeting held on 28th May, 2018.

50 The figures as on the transition date and previous year have been re-arranged and regrouped wherever necessary to make them comparable with those of the current year.

The accompanying notes are an integral part of the financial statements.
